### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The instant invention is deemed to be an unobvious improvement over U.S. Patents 6,588,314, 5,372,059, and 3,710,692. The referenced patents disclose spring brake actuators having a service chamber, a spring chamber divided into a control chamber and a spring cavity, and a valve, operable between open and closed positions, connecting the service chamber with the spring cavity. The improvement comprising the valve being biased open by a force, and pushed closed when the pressure in the service chamber exceeds the combination of the pressure in the spring cavity and the force.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
